Mercury Stationary Retrograde in 01st House

This begins a three-week period during which you have the opportunity to refine and perhaps repurpose the way you project yourself in your surroundings. Round off the raw edges and pull in any potential entanglements that might be slowing you down. You have not only the right, but sometimes the obligation, to change your mind in order to insure consistency and personal impact. Toward the end, this may particularly include tightening up solutions to previously resolved issues to be sure they are well in hand. When you've got all your ducks in a row, you won't have to look back.

Mercury Conjunct Ascendant (Retrograde)

Just when you thought you were home free, someone called time out and now you have to rework your game plan and refocus your approach. Mercury backpedaling on your Ascendant means you will have to touch up your personal presentation and make sure you are leading with the best -- and the most truthful -- game plan. What may seem like reversal is only delay, and you'll be glad in the end that it happened, giving you time to clear previously overlooked stones from your pathway. Once past selective makeover, you will find your image successfully bears scrutiny at every level.

Mercury Stationary Direct in 12th House

If loss of communications has left you clueless, you can start collecting more reliable evidence again. When exterior sources fail to provide the information you need, you may have to rely on your inner resources and come to your own conclusions without external input. However, if you can avoid tying yourself down, that would be a better choice, as things may be going on without your knowledge that will surface soon and give you a better handle on your operations. When the mist clears, you'll have the opportunity to really make yourself seen and heard.

Mercury Conjunct Ascendant

Mercury making its turnaround on your Ascendant can give you the opportunity to be the person with the first word in -- the solution-maker -- if you let it happen. Don't be afraid to chime in with new ideas, even if there has been a lot of confusion of late, because now is the time when resolutions finally become available and forward motion can begin again. People

will tend to look to you to be the instigator, so don't disappoint them, let your ideas out of the box where they can do some good. You may not get everything you want, but you'll be first out of the gate, and the beginning is half of everything.

Mars Stationary Retrograde in 05th House

This period can be fun and profitable if you are willing to try multiple efforts and not expect them all to finish. A creative shotgun approach where you go with the best of many tries may be taxing, but you'll likely come up with a winner in the end and have several more half-developed possibilities for later. This is not a time to put all your eggs in one basket, but rather to sample eggs and baskets and see which suit. Keep a positive attitude and a tight inner focus and you'll thrive where others lose their way. Readvancing the principles you have already established for yourself allows you to play strong but easy.

Mars Conjunct Venus (Retrograde)

Actions you felt sure were going to get you exactly what you want may turn out to be less fruitful than you might have thought, as Mars beats a retreat from your Venus. The narrow gap between opportunity and desire can suddenly seem like a chasm, but that may be because you were trying to cross the canyon at the wrong place. There's more than one way to skin a cat, and now's the time to investigate some of the alternatives. When the direct approach falters, try sneaking up from the rear or pulling an end run. Don't push, but allow yourself to be pulled into your objective.

Mars Stationary Direct in 05th House

Creative efforts that have been bogged down for a while will be seeing a turnaround, and energies that were previously blocked begin to flow again. Part of that comes from abandoning things that smack only of obligation and turning to windows that let in the light of opportunity. In a phrase, go with what you want to do, not what you think you should do, and you'll get a lot more mileage down the road. When you feel pleased, you gather energy from your environment; when you feel burdened, your surroundings tend to drain you. Go with the positive flow in your direction and health and wealth will follow.

Mars Conjunct Venus

As Mars relaunches right over your natal Venus, don't be too shocked if the chance to get and do what you've been wanting suddenly drops at your feet. This is where desire and opportunity meet, so it could be just where you can take the ball and run with it. The trick is to field the prospect with aplomb so it seems like you were expecting it all along. Delays caused by recovering your bearings could greatly diminish what's being handed to you, so keep an open stance and be ready for the best to happen. Seize the day, capture the flag, and don't fumble the ball....

Mercury Stationary Retrograde in 04th House

The next three weeks may cause you to step back and rethink your course and reset your bearings to make sure you are really on the course you intended. Do not hesitate to question fundamental values in order to get to the heart of what you believe and resolve inner conflicts that may arise. Small insights can net you large gains, particularly in the future stability of

your ship. Rock your own boat before others do, and you'll be the better off for it. By the end, you may find risk reevaluation highly useful, particularly when you depend on others to evolve into what you will lean on in the future.

Mercury Stationary Direct in 04th House

A period of some delays, detours, and slowdowns has turned the corner and with a little more fine-tuning life operations will be not only back to normal but improved. Issues having to do with direction and creative focus begin to resolve themselves and turn out to have been only temporary delays, not fundamental problems. Once you have buttoned down the last of the recently arisen distractions, you can put your mind fully on the game and get back to being the you you always thought you were, only better. The exercise provided by internal troubleshooting and introspection brings you back stronger than ever.

If you can spend the next three weeks redeploying your debts and reallocating resources, you will not regret it. In fact, it may simply be a necessity to pick up loose ends and take a second look at whether you are unnecessarily overextended. With a little tweaking, you could be sitting in the catbird seat, but you'll need to test the wind to get some height. Pick up on

assets you've neglected or forgotten about, and you'll have all you need. Make new friends, but keep the old; one is silver, but the other's gold -- in ways you hadn't even thought about.

Mercury Stationary Direct in 08th House

The last few weeks' complexities and contradictions begin to clear up and you've turned a corner on finding out what you can get elsewhere and what you can provide yourself. If you need to borrow, it will be in the cards, but you may equally find that a little inventory of your past resources will reveal you've actually got all you need if you try out a new way to tap it. Brilliant ideas that seemed elusive are headed back into the pipeline but will still need a little sorting out before you can bring them to fruition. Putting previous obstacles behind you will give you the chance.
